FOREWORD

In 1984, the nation again experienced a decrease in the number of Part I offenses reported through the Uniform Crime Reports (UCR) program by 1.9 percent. Mississippi also enjoyed a decrease in 1984 by 4.2 percent.

Data presented in this report is the result of the voluntary participation of Mississippi law enforcement agencies in the FBI's UCR program. The continued hard work and cooperation of these agencies is appreciated very much as this report would not have been possible without them.

A special thanks is extended to those agencies which reported for all twelve months of 1984 and were kind enough to provide this office with the individual reports. The additional data has been an enhancement for the Crime in Mississippi 1984 edition.

It is hoped that the Crime in Mississippi 1984 will be a useful and interesting source of crime information for the criminal justice community.
